VETERAN

*This carving represents the lifeline of our Earth, our home. Each turn is a conflict or pandemic. The first three turns represent WWI, WWII, and Pandemics. The last turn, and by far the largest one, is Climate Change; the leather represents how we repaired our past mistakes.*

*The question now is, will we repair the damage we have created over the past years? Will we restore the Earth, our home to its former-exquisiteness? Lifeline is Hand-carved in our Oromocto, NB Studio*
