

# *Custom Orders*

*It all starts with letting us know what you would like. We will work with you to design your project, which is a free service we provide. Once the design is complete, you will receive our project estimate, which guarantees that it will not cost any more than what we state. Once the design meets your requirements and we have settled on a price and due date, we will require a 50% down payment to start the ball rolling. Once the project is completed and delivered or en route to you, we require the remainder of the cost, the last 50% plus tax, to be sent to us. DW Custom Orders Owner and Master Carver Darkwood Woodcarving [DW] Carving gary@dwcarving.com (506) 238-1398 If you have any questions, please give us a call or email us; thanks and Chimo!*
